MSPs Obtain New Profits From Their Clients

WHO WE ARE

Micro Integration Services (MIS) is a custom software development company specializing in solving business problems since 1985.

THE PROBLEM

Increasingly MSPs are being asked by their clients how to automate business systems. Some problems require custom software – an area where many MSPs do not have sufficient resources.

THE SOLUTION

Partnering with MIS allows MSPs to offer extensive solutions to their clients. This produces a new revenue stream.

HERE'S WHAT OUR PARTNER MSPs ARE SAYING

As a trusted solution provider to our clients, we need to be vigilant when bringing in third-party service providers to handle projects that are outside our wheelhouse. MIS did a great job working with our client, handling them as we would, and providing a great solution. It couldn't have been easier. -Brian Minker, Able Technology Partners LLC

We've increased our revenue with existing clients while maintaining our status as their trusted solution provider. Our clients are happy – Andrew Bonner - Palm Network Systems

WHAT'S NEXT

Request a meeting to learn more about our custom software services. We'll show you how to increase customer loyalty while providing a new revenue stream.

THE BENEFITS

- **Easy to use**: Our software is designed to be intuitive, even for non-technical users.

- **Flexible**: Our solutions are custom built to meet the specific needs of any project.

- **State of the Art:** We utilize the newest software tools to make software that maximizes ROI.

- **Support:** Our support team responds in minutes providing your clients with the help they need.
